

ROJAS KEEPS TOWN CUT OFF

Miners Tell of Conditions in Nacozari District and Activity of Rebel Forces

ESCABOSA IS HANGED

J. Wilson Rice, James Smith and E. A. Borgeson, mining men, arrived in the city yesterday afternoon from San Nicholas near Nacozari, having walked from San Nicholas to Yabai. At the last named place they caught a troop train and were brought to Agua Prieta, arriving there yesterday morning. The men had had no sleep since Saturday, when they left their mining camp.

Although a crew of laborers is engaged in repairing the railroad between Yabai and Nacozari, Rojas is said to have sent word to the mining company at Nacozari that there would be no trains run on the road until their "demand" was complied with. Just what was meant by this threat is not plain, unless the rebel commander has demanded an indemnity or a bonus in return for a guarantee of non-interference.

No More Fighting

There has been no fighting at Nacozari since Sunday a week ago, when rebels were repulsed. The attacking force was led by General Rojas, who according to the leaders own statement, has only 185 men. This number was confirmed by an informant of this paper who counted the men. With Rojas in his attack on Nacozari was one Captain Terrazas, said to be a nephew of General Terrazas, who is said to have had 300 men before Nacozari.

The loss to the rebels in the battle of Nacozari was two killed and six wounded. This is Rojas' statement of his losses. Federals at Nacozari claim to have found three graves. The six wounded rebels are in an improvised hospital at San Jose.

Rojas has 180 men and eight pack mules loaded with ammunition. Every trooper has two mounts and two rifles. Rojas has given assurance to small mine owners in the Nacozari district that his men will not be permitted to pillage but he said that there are numerous small lands following his command claiming to be a part of his army but who are mere bandits. Rojas has declared that he will

execute rebels wherever he finds them.

Protection is Conditional

Rojas has conditioned his statement that he will protect Americans and American property. He guarantees protection as long as Americans do not join federals in defending Mexican towns or mining camps. "I will cause to be shot any rebel who harms any foreigner, even to a Chinaman so long as they do not participate in any fight against the rebel cause but they not observe this caution, we will retaliate," Rojas is quoted as saying.

Rojas, who is a socialist says that "the rich must pay for this war" and he is apparently placing the burden of financially supporting the rebellion on the big ranches and mining camps. The mining men who reached Bisbee yesterday confirm the pillaging of the Cheronobabi ranch. They took four horses and merchandise from the ranch store amounting to \$1,000.

Rojas is now in the Purica mountains, fifteen miles from Cananet. He was at San Jose Monday a week ago, the day following the attack on Nacozari.

Pass Federal Troops

Rice said that as they neared Yabai Sunday they passed 500 federals, who said they were going to Nacozari. Rice, Smith and Borgeson left San Nicholas Saturday and arrived at Yabai Sunday at noon. The San Nicholas mine, which is owned principally by Bisbee capital, was left in charge of a Mexican caretaker. A quantity of ore was also left at the mine.

Escabosa is Hanged

Escabosa, the bandit who operated south of the Arizona boundary line several months ago, has been hanged on the order of General Rojas, the ex-Chihuahua rebel who is now operating in the vicinity of Nacozari, according to an authentic report that reached the city yesterday.

While Rojas not a bad name in Chihuahua, whether justly or otherwise, according to reports he has adopted a policy of protection for American and American property in Mexico. Escabosa's habit of plundering is said to have brought down upon him the wrath of Rojas. A week ago Sunday while he was at San Jose, Sonora, he stated that he would hang Escabosa and on the following day he carried out his threat when he came upon the bandit in the Purica mountains, east of Nacozari. The Review's information comes indirectly from a member of Rojas' command who is well-known at Nacozari.

Escabosa terrorized the country around El Tierno several months ago and collected loot under the guise of a revolutionary leader.

It is said that Hobbs and Mitchell, of the Cincinnati Reds, hope to be traded to the Boston Braves. That's a horrible wish!

NEW CITIZENS MADE PRIOR TO ELECTION

Thirty-five Applications Are Passed Upon by Special Examiner Monday

Carl Sinclair, of Bisbee, is the first naturalized citizen of the state of Arizona. At Tombstone yesterday he was given citizenship paper No. 1, the first issued since the territory became a state. The special examiner arrived at the county seat yesterday and passed on 35 applications. With due appreciation of the honor he succeeded in having his application passed on first. His witnesses were L. R. Roscoe and William Trenan, of Bisbee.

Great Britain was the heaviest loser at Tombstone yesterday. Thirteen citizens of that country transferred their allegiance from England to the United States. Nearly all nationalities were represented in the number that applied for citizenship. Five were turned down, some on technicalities and some on the ground that they had not resided in this country long enough.

The thirteen Britishers, now Americans are residents of Bisbee and Douglas. They will be unable to vote in today's primary but they may vote in the election of November 5 if they register.

COTTON MANUFACTURERS MEET

NEW LONDON, Conn., Sept. 9.—Cotton manufacturers from all parts of the country are in attendance at the ninety-third annual meeting of the national association of cotton manufacturers which opened today for a three day session at "The Griswold," Eastern Point, near this city.

At the opening session the members were welcomed by Governor Simeon D. Baldwin and President Edwin Farnham Greene delivered his annual address. Later the governor held a reception in honor of the visiting members. Many important subjects will come up for discussion during the three days of the meeting among them questions concerning the conduct of textile mills, tariff relations to the industry, the workman's compensation laws of the country, mechanical equipments, cotton growing and many matters of a purely technical nature.

The pennant winning teams of the Kitty and Blue Leagues will meet in a series of championship games at Louisville, Ky., beginning Sept. 5.

INTEREST TO CENTRE ON DEMOCRATIC VOTE

Only Contest at Today's Primary is Upon Choice of Three Electors

All parties will hold primaries throughout Arizona today to nominate candidates for Arizona's three memberships in the electoral college. The result of the primaries of the republican, progressive and socialist parties are foregone conclusions, as each of those parties has only three candidates, the number of memberships credited to the state. Therefore, the only interest in the result of their primaries is the number of votes polled.

With the democrats it is different. There is a feeling that whoever is nominated by the democrats will represent Arizona in the electoral college, and there are seven democrats who want to attend that college and cast Arizona's three votes for Wilson and Marshall.

Tovrea Will Lead

These democrats are E. A. Tovrea, of Lowell; George Habbitt, Lyander Cassidy, John R. Hampton, Wiley E. Jones, W. A. O'Connor and W. T. Webb. Only three can be nominated, hence the friendly contest at today's primary for the honor.

It is predicted that E. A. Tovrea will lead the ticket. He will get the solid democratic vote of Cochise county, and this will be augmented by the vote in other parts of the state where he is well known. He has influential friends who have been working in his behalf, and upon the returns received by these friends the prediction that he will lead the ticket is based.

The ballots for today's primaries have been so printed that every candidate's name appears at the head of the ballot as often as every other candidate's name. For instance, Tovrea's name heads every seventh democratic ballot that was printed. The same is true of the names of candidates for precinct committees. There is no candidate locally for committeemen except an accidental contest in the third ward of Bisbee, where there are five candidates for four jobs. In their zeal to get out a full ticket for committeemen, the democratic leaders got out five petitions instead of four.

Cochise is On All

Bisbee will be represented on the ticket of every party in the field. Tovrea is sure to become one of the democratic candidates for elector; Greenway has an electoral college membership nomination on the progressive ticket checked; Hoval A. Smith is one of the three republican candidates, and J. L. Brooks is one of the socialist candidates.

Candidates for party nominations for congress will also be named in the primaries today, but as each party has only one candidate, there will be no contest. All candidates are pledged to the advisory recall. Carl Hayden's nomination will be practically equivalent to re-election.

The voting place in Bisbee's precinct No. 1 will be the fire station, with Lee Stuch and John J. Hill as judges and J. J. Harrington inspector. Voters in precinct No. 2 will vote in the basement of the Allen block. H. W. Thomas and John T. Quick are judges at this voting place, and I. W. Wallace inspector.

The Johnson block on Main street will be the voting place in precinct No. 3, with Sam Briscoe and L. G. Jackson judges and P. H. Fitzpatrick inspector.

DEAF MUTE SCHOOL TO BE OF BENEFIT

Opportunity for Education Now to Be Given to Arizona Unfortunates

PHOENIX, Sept. 9.—(Special).—One of the most beneficial bills passed by the first state legislature, that which provides for the free education of the deaf and dumb within the state, will be carried into effect this fall.

A department for the deaf has been organized at the University of Arizona, with Prof. Henry C. White, a man of liberal education and experience in all methods, as principal, who will be ably assisted by a corps of teachers and officers. A common school education will be taught to the pupils, and an industrial training as far as practicable will be given, in order to make them useful, self-supporting citizens in after life.

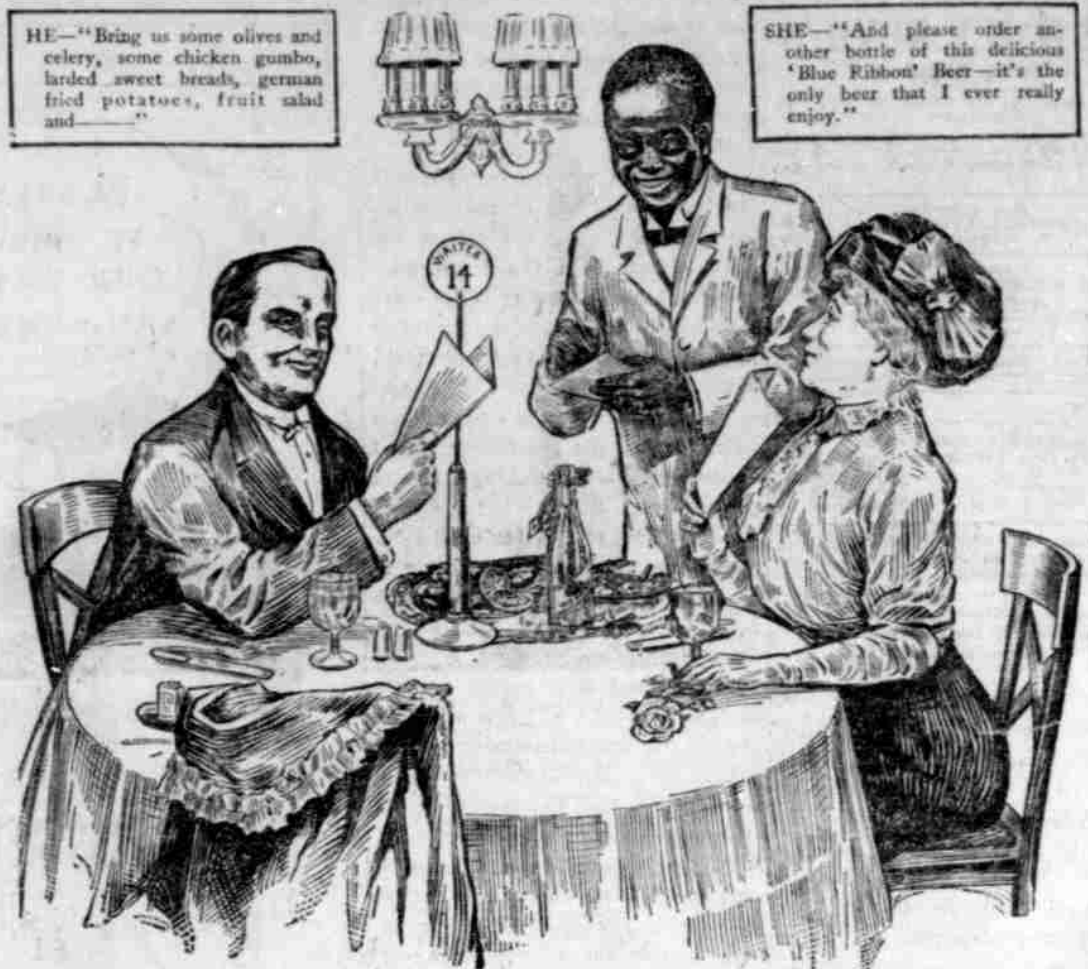

Any one knowing of any uneducated deaf mute, of school age, in Arizona, will confer a favor upon the school by notifying the principal of such cases.

The parents or guardians of these children are urged to take advantage of this law and apply for the child's admission to the school at the earliest opportunity. They are requested to go to the county superintendents of schools who will take down their names and addresses and forward the same to Prof. C. C. Case, state superintendent of Public Instruction, who, in turn, will send blanks for admission to the applicants. None will be denied admission on account of poverty.

Any further information may be had by applying to the principal of the school for the deaf, Tucson, Arizona.

Pitcher Meldon Wolfgang, who had a trial with the St. Louis Browns last fall, is doing great work for the Lowell team of the New England league.

—JUST TO REMIND YOU—
THE BANK OF BISBEE WILL PAY 4%
ON SAVINGS ACCOUNTS, Commencing Sept. 1.

The Most Important Part of the Order

Pabst "Blue Ribbon" Beer lends keenest enjoyment to the most modest or sumptuous lunch.

It is the invariable favorite with those who insist on quality. No other beverage compares in zest, nor is so pleasing to the palate.

Bottled only at the brewery in crystal clear bottles, showing at a glance that it is clean and pure.

Be sure to order a case sent home today. Phone or write.

W. E. Harrison Co., Inc.
Brewery Gulch, Phone 395 Bisbee, Ariz.

CHILD SEES FATHER TAKE DEATH DRAUGHT

Albert DeVotie Calls Little Daughter to Witness His Suicide

Albert DeVotie, an aged brick-mason, drank carbolic acid with suicidal intent yesterday morning at 9:15 o'clock at his residence in Tombstone canyon and at 12:30 o'clock he died. The only witness to the act of self-destruction was DeVotie's little daughter, Mary, aged 10. Before he drank the poison he called her into his room and drank the ounce of carbolic before her eyes.

The little girl gave the alarm and a physician was called. He arrived fifteen minutes after the poison was taken but DeVotie could not be revived. Coroner High and a jury viewed the body after death and will hold an inquest this afternoon at 3 o'clock. The funeral arrangements have not been made. The body is at the Palace morgue.

DeVotie was 72 years of age. He is said to have a brother in California who is very wealthy, though his address is not known. Little is known of DeVotie by old timers who were interviewed. He was a Frenchman and came to this district about sixteen years ago from California, working at his trade as a brick mason. He was one of the best artisans in the district.

He leaves a family of a wife and five children, three daughters and two sons.

"THE MONEY KINGS"

The Royal Theater, commencing with today's matinee, will present the Vitaphone company's great three reel masterpiece entitled "The Money Kings." This is a timely production showing the underhanded methods employed by the money powers to further their own interests, regardless of the consequences to our nation.

The great money powers of the country have brought great pressure to bear in an endeavor to suppress this picture, but so far have been unsuccessful, owing to the fact that no names are mentioned, but the characters are so plain as to leave but little doubt in the mind of the spectator.

If the state of affairs expressed in this picture be true, then, indeed our country is in a bad way. This great production will be shown for three days only, and everyone interested in the welfare of our country should make it a point to visit the Royal theater and witness this great drama of modern times.

SOUTH DAKOTA STATE FAIR.

HURON, S. D., Sept. 9.—With everything in readiness for the public and prospects for a successful season, the South Dakota state fair, threw open its gates here this morning. It will continue through the week. The exhibition is one of the most complete ever staged in this part of the country, displaying the agricultural and other resources of nearly every county of South Dakota. The array of free amusements is unusually large, with the speed meeting and aviation flights as the big features.

EASTERN MARKETS YESTERDAY

(L. J. Overlock)

BOSTON Sept. 9.—Activity in the local market today was confined almost entirely to a few specialties. Butte Superior was well taken advanced to 49 1/2 and closing near the top. Chino and Ponk Creek were also active and strong. The declaration of the regular dividend on Wolverine had no effect on the stock and price swung around 33. North Butte was strong at the opening but weakened fractionally later in the session. Copper Range declared fifty cents quarterly and a few odd lots offering caused stock to recede fractionally. The Copper Producers report was exceptionally good but had no effect in a dull market.

Total sales New York 290,900. Copper metal 1734 to 75. Copper Producers Report Decrease 3,500,000.

MALARIA—BLOOD POVERTY

Malaria is a species of blood poverty known as Anaemia; the circulation becomes so weak and impure that it is unable to supply the system with sufficient nourishment and strength to preserve ordinary health. In the first stages of Malaria the complexion grows pale and sallow, the appetite is affected, the system grows bilious, and there is a general feeling of weakness. As the circulation becomes more thoroughly saturated with the malarial infection, the digestion is deranged, chills and fever come and go, skin diseases, boils, sores and ulcers break out, and the entire health becomes impaired.

Malaria can only be cured by removing the germs from the blood. S. S. S. destroys every particle of malarial infection and builds up the blood to a strong nourishing condition. Then the system receives its proper amount of nutriment, sallow complexions grow ruddy and healthy, the liver and digestion are righted and every symptom of Malaria passes away. S. S. S. cures in every case because it purifies the blood. S. S. S. is a safe and pleasant remedy as well as an efficient one. Book on the blood and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Backslider

from Wellville

to Dingbat-Town

A slide:—

from health to ill-health

A great many people have tried the slide, who didn't know exactly what they would get in "Dingbat-Town."

The coffee drinker is quite certain to get some kind of a "bat." It may be in stomach, liver, heart, bowels, eyes, kidneys or some other organ, for the bad effects of the caffeine in coffee, locate in a variety of different organs in different people.

Many persons who knew this some time ago quit coffee and commenced Postum.

Then, because they found trouble in having Postum prepared suitably at hotels and elsewhere, they gave it up and went back to coffee, thinking, "Now I am well and can stand it."

So they became backsliders, and when they slid into "Dingbat-Town," Symptoms of the old trouble began to show again, they found it difficult to return to Wellville.

Now comes

Instant Postum

as one sure way to get back.

Instant Postum is in powder form—made from regular Postum, and contains the same nourishing ingredients—you simply stir a level teaspoonful into a cup of hot water and instantly have a perfect cup of Postum; it has a delicious mellow flavor and is free from the coffee drug, Caffeine.

It can be made anywhere that hot water can be obtained; in hotels, on the train, in the office—its high, rich quality is constantly uniform.

Tins holding enough for about 100 cups are sold for 50 cents by grocers. Smaller tins at 30 cents, make about 50 cups.

Ordinary coffee costs about twice as much.

A two cent stamp to cover postage will carry to you a 5-cup sample tin free.

Made by Postum Cereal Co., Ltd., Pure Food Factories, Battle Creek, Mich.
